# Press Pack

- EZCON Press Pack Trucks reduce the volume of residential or industrial waste loaded into the container by compressing them and employ an ejector to discharge the load.
- The Press Pack Trucks are capable of handling oversized waste materials as well as regular waste. An optional bin lifter automates the dumping of waste bins into the hopper.

# Roll Pack

- EZCON Roll Pack trucks use a rotating plate to push garbage from the hopper into the container and a dumping mechanism to discharge garbage from the box.
- The Roll Pack Trucks are ideal for handling small-volume wastes, which makes them suitable for disposing of household waste.
